The reason why you are running? My primary interest is to assist the admin team and teachers through good leadership and management practices with a goal of increasing student academic growth. School ranking solely based on reported test scores and subjective ratings should not be used to judge how successful a school district is in educating its children. I want to help create a more transparent process that our district can share with current Derry citizens with or without children as well as those seeking a new home in our town. Once we have a good system in place that measures multiple indicators, our district will be able to track progress more effectively over time.

What do you think you bring to the table/Why you? I do have experience as a school board member and operate a small business. It takes a good amount of time to come up to speed and I feel I can step back in with minimal research in order to be back to where I was when I left the school board. I worked very hard and took the responsibility seriously through work on key committees as well as taking time away from my

business to testify in Con- in the schools and own my cord for school funding. I intend to do the best job possible in order to improve our district's education. Having experience in operating a business in a highly regulated environment helped me bring a different viewpoint to the Board.

How do you feel that you could make a difference? As someone who has worked within the community for nearly 50 years, I have seen a number of trends and changes, all of which involve the student age population to one extent or another. The rate education and the manner in which it's delivered is changing at a more rapid rate than ever. Career paths are vastly different from the manner in which they existed in the past. In order to increase the economic health of the state and our tax base, we need to be able to offer a well-educated pool of potential employees, both professional and technical. With a young, capable pool of young people, businesses and industry will be attracted to New Hampshire, thus increasing the state of our economic viability. Public schools lay those foundations and my focus on placing curriculum, as a priority will help in achieving that.

The reason why you are

home. I represent the view that all members of the community are stakeholders in quality education.

What do you think you bring to the table/Why you? I understand our funding model for our schools is either equitable or viable. The state has abdicated its court ordered responsibility to ensure an adequate education and taxpayers have felt the impact. They have also shifted costs from the state to the cities, towns and school districts. This alone has caused a considerable additional financial burden on schools and the local tax rate, with no corresponding return. I have been and will continue to be, vocal in urging the legislature to formulate a funding model by testifying in legislative hearings and working toward a resolution of that issue.

The most serious issues are? Enrollment and Funding. While the student body continues to decrease, no elementary schools have closed. Though without restraint the school Board is asking the Town of Derry approximately 35,000 residents to fund additional programming.

The Town has to adhere to a strict Budget and like many residents must pick and choose what they can afford to spend. All the while running the entire Town including Police and Fire Departments, with 1/2 the Funds of the School Budget.

In March of 2020 at the School board deliberative session the board proposed a new Budget of 92 Million dollars. I was hoping to see many more taxpayers and parents at the meeting. I'm sure that is attributed to their raising their families at a hectic and harried time.

I hope to represent parents and taxpayers concerns on the School Board.

Jessica Ring

My name is Jessica Ring and I am running for a seat on the Derry School Board. I have lived in Derry for 17 years with my husband and our two daughters, ages 11 and 14. I received a bachelor's degree in biochemistry and molecular biology and had worked as an analytical chemist for 12 years prior to staying home with my children. Over the last 10 years, I have been an active volunteer within the Derry Public schools and in the community. From being inside a kindergarten classroom helping with Reader's Workshop to being an officer in the PTA to running the Book

of the classroom, I served as a member of the Facilities Committee and more recently I have worked to register with the Supervisor of the Checklist.

I believe in giving back to my community and these years of volunteerism and advocacy have led me to this point. I have attended or watched the majority of the school board meetings over the last 5 years and feel like I have a good pulse on current issues and community concerns. My analytical mind set, collaborative nature, and my passion for education makes me well suited for this job. Being active in the district PTA and PTSA organizations, I see what a direct impact parental involvement has on students' academic achievement and quality of the schools. I believe the table. schools are an integral part

impacted by the involvement of the whole community, parents and non-parents alike.

There are concerns over new voters during elections decreasing enrollment, increasing costs, and mediocre school rankings. Consistent with other efforts across the town to make Derry a more desirable location, the District and Board need to continue to think and act strategically to deliver the variety of improvements the community is expecting. My focus is to make sure any change will improve the quality of education and well being of the students while remaining fiscally responsible. I alone cannot make a difference. Joining the School Board will make me part of a team. Collaboration, communication, and transparency are of the utmost importance to me and I will bring that to the

Be Prepared to Vote on March 10

Election Day for most towns in the state is March 10. In the days between now and then, we hope you'll listen to candidates speak, read their words, and ask them about the issues that concern you.

Local Elections affect everybody in town; the money being sought is your tax money, and you have the right to have a say in where it goes. This is your town, and your views make a difference, but only if you vote.

The March election has no state or national candidates, and that's traditionally bad news for voter turnout. We remind you, that your vote has far more impact in the local government elections than it ever will on the state or federal level.

In countries across much of the world people take to the streets and literally risk death to demand free elections and the right to have a say in their government. They look to the United States as an example of how government by the people works.

Equally important are the warrant articles on both the town and school ballots whether it's the school budget or a request for funding for other items. Town and school requests should be handled the way you handle your checkbook - Can you afford it? Is it a necessity or a luxury? Is it something you can put off, or is will cost much more later on?

Staying home is easy, but taking the time to cast an informed vote is what a democratic country expects of its citizens. If you don't understand what you're being asked to approve, seek the answer. The right to vote is important, but it carries

with it the responsibility of understanding the issues. Your vote shouldn't be swayed by the vote of the town council or the budget committee. Your vote should also not be influenced the views of your neighbors. The vote is yours and you must vote on what is true to you. So choose wisely and educate yourself. There are bios of the candidates that run in the local papers and sample ballots are printed as well. Also the website of your town should have sample ballots posted.

We let ourselves and everyone else down when we ignore local elections. If you fail to vote and find yourselves taxed out of your home and represented by people who embarrass or upset you, complaining after the election will not help.

How about union contracts? Most contracts are for two to five years and add a dollar amount for each of those years it is in effect. Make sure you understand the costs attached to each additional year because you won't be asked to vote on it in future years; the money will be added to the overall budget each year and will be part of your future tax bill. When a warrant article states that there is no tax impact that may not be true for future years.

Please educate yourselves and understand the complete picture. Each article has pros and cons. In addition, many have longterm implications that affect your wallet every year. It pays to listen and understand both sides' citizens and local governments.

So for the good of the community, please vote March 10.

"It is important to note that only the building will be closed," Libasci stated. "The future of the Parish of the Holy Cross itself is unaffected by this action. In order to attend to the process ahead of us, we must engage in consultation with all the parties involved, especially the parishioners. I will announce any decisions as a result of these consultations, via the diocese's Office of Communications. Anything to the contrary will amount to nothing more than rumor and misunderstanding."

The diocese stressed it has not made any decisions yet to close the Catholic Hampshire. Mass is sched-

It is unclear if the parish will attempt to raise the funds necessary to remedy the issue so the fate of the 15,400 square-foot church building is yet to be determined.

Members have stated that their numbers have wavered over the years, but they are hoping for help from the archdiocese to provide an appropriate solution. When the church building is shuttered at the end of April, the diocese is encouraging the congregation to attend other nearby churches such as St. Derry or Saint Anne in Hampstead.

The game started with both teams playing physical and the Lancers having some chances early. It was a scoreless first period, and the second period started with some back and forth play. Both squads delivered big hits on defense and then Londonderry struck first at the 3:01 minute mark. The Lancers kept rifling shots at the Pinkerton goaltender, which finally resulted in a rebound shot for them. All the momentum was with Londonderry and things got more aggressive, as both teams turned things into a bit of a shoving match, elevating the crowd participation.

Londonderry headed into the final break with a 1-0 lead, but that lead only lasted 40 seconds as they returned for the third period. At 14:20, senior PA captain, Mason Drouin, found the back of the net, to tie things up 1-1. A few minutes later Joseph Marra passed the puck up to Mason Drouin who then went coast-tocoast for a beautiful goal in the top left corner of the net for a 2-1 lead. Towards the end of the final period, at the 3:39 minute mark, Pinkerton's Aidan Price scored off an assist from Hayden Shattuck. With the Astros now up 3-1 late into the game, Londonderry pulled their goalie, leading to Mason Drouin's hat-trick

want to walk the walk for a whole game and not just parts of it." She believes if her team sticks to the game plan they will have success against any matchup. "If we can do that, we will give ourselves a good chance to compete with most teams in this league." Buskey added.

Pinkerton was scheduled to host their rival Londonderry Lancers in the first round of the playoffs on Wednesday March 4, on their home Hackler Gym court, after the Nutfield News went to print.

If they manage to get by game winning streak, they will have to play Merrimack ond seed in the tournament and have only lost two games all season. That game is planned for Saturday, March 7, at Merrimack starting at 7 p.m..

READERS ARE CAUTIONED that we occasionally run ads that require an initial investment or money in advance. We urge our readers to "do their homework" before responding to any ad, check out the advertiser thoroughly and verify their claims to your total satisfaction. Only then should you proceed at your own risk. We try to screen ads that require you to send money before receiving a product or service. But these efforts are no substitute for your own investigation, and we don't endorse or guarantee any claims made in any of the ads we publish. If you want more information about claims made in ads on subjects such as work at home opportunities, travel or vacation specials, purchasing land or vehicles from government surplus or below wholesale, loans or other credit opportunities (including credit repair), or weight loss and other health products and services, we urge you to contact the Office of Attorney General, Consumer Protection Bureau, 33 Capitol Street, Concord, NH 03301 (603-271-3641) or the Better Business Bureau at 603-224-1991. Snow & Ice Policy

The Department wishes to remind residents of the Town's Ordinance regarding parking and the placement of snow on the street. The Winter Parking Ban is in

During that time, no person shall park any motor vehicle on any public road between midnight and 6 a.m. Any vehicle parked in violation will be towed. Vehicles towed shall be stored and released to the owner only upon payment of the cost of towing. No person is allowed to place any snow or ice upon the surface of the traveled portion of any Town maintained portion of road or highway. Blowing, shoveling or plowing snow into the street creates a very dangerous situation that can cause accidents. Any person violating this ordinance will be subject to a fine. Location of Mailboxes: As a friendly reminder, all mailboxes and newspaper boxes are allowed to be located within the Town right-of-way at the owner's risk. The removal of snow around mailboxes and maintenance of the mailbox and post are the responsibility of the owner. Residents are asked not to place any permanent or temporary structures, sprinkler heads or landscape items within the Town's rightof-way. The Town does not repair mailboxes damaged during snow removal operations. In addition, stakes, delineators or rocks placed at the edge of pavement can not be guaranteed for protection during the winter season.
